DETAILED ACTION

Response to Arguments

1. The amendments and arguments presented by the applicant have been duly noted. However, an update search and further review of the prior art of record has prompted the presentation of new rejections presented below. In view of such, the previous rejections in the first office action have been withdrawn.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 12,15,19 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Zelczer (U.S. Patent Number 4,545,524) in view of Cole (U.S. Patent Number 3,976,245).

In regard to claim 12,15 and 22, Zelczer discloses a zone control apparatus for HVAC system. Referring to Figs.3-11, the system comprises a inflatable bladder 51,59,65,95,82,83, tube 53,60,93,80 and nipple within the coupling 55,62,58. However, Zelczer does not disclose the coupling is a pin connection. Cole discloses pin 64 in the analogous art of tube coupling for the purpose of connection. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the apparatus of Zelczer with a pin in view of Cole so as to connection elements.

In regard to claim 19, Zelczer discloses clamp (e.g.; Fig.5) to secure the tube to the duct. The duct can be in any direction.

Allowable Subject Matter

4. Claim 13 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:
The prior art of record when considered as a whole, alone or in combination, neither anticipates nor renders obvious a band surrounding the nipple and the pin to prevent the pin from dislodging from the nipple.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chen-Wen Jiang whose telephone number is (571) 272-4809. The examiner can normally be reached on Monday-Thursday from 8:00 to 6:30.
